

CONTENTS

SYMPOSIUM A — CAPITAL COST CONTROL

- A-1** *Cash Flow and the Construction Client* — John G. Lowe and Helen C. Lowe
- A-2** *Controlling Project Costs Through Trending* — Daniel Becker, CCE
- A-3** *Modular Design and Construction* — James A. Bent, CCE
- A-4** *Capital Cost Control: The Owner's Perspective* — Marc T. Richardson, PE CCE
- A-5** *Cost Control and Project Accounting Are Getting Married* — Serge Pressoir, P Eng.
- A-6** *Value Engineering: A No Risk Investment* — David H. Coffield, PE, Robert H. Herr, and Yvette Strehle
- A-7** *Control of Petrochemical Civil Engineering Costs* — C. Hardcastle, H. W. Brown, and A. J. Davies
- A-8** *Cost Flow System for Cost Management* — Tsutomu Harashima, CCE

SYMPOSIUM B — CAPITAL COST ESTIMATING

- B-1** *Patterns in Cost Indices* — John Brass and A. M. Gerrard
- B-2** *Economic Potentials of Seawater Desalination by Reverse Osmosis* — M. M. Abdelhalim, CCE and Dr. M. M. Abdel Jawad
- B-3** *Factors Affecting Accuracy of Engineers' Estimates* — Martin Skitmore and Siew Hui Tan
- B-4** *How Accurate are Capital Cost Estimates* — G. Stevens and T. Davis
- B-5** *Approaches in Construction Project Cost Risk* — Karlos A. Arto
- B-6** *The Integrated Cost Estimating Systems Technique for Building Cost* — Kurazo Yokoyama and Takeshi Tomiya
- B-7** *Cost Modeling Techniques in Perspective* — Sidney Newton
- B-8** *Cost Estimating At Corpoven* — Atilio E. Gonzalez, Carmen Smith, and Beatriz Rincon

SYMPOSIUM C — CONSTRUCTION COST MANAGEMENT

- C-1** *High-Tech Low-Cost Tunneling — "The Oslo Method"* — To Solve the Traffic Problems of the Future — Kjell Ottar Berge and Eilif Holen
- C-2** *Overseas Construction Projects: Critical Costing Considerations* — Kweku K. Bentil
- C-3** *Construction Project Budgeting and Forecasting* — Farzad Khosrowshahi
- C-4** *Cost Assessment of Emerging Construction Technologies* — Thomas R. Napier and Luh-Maan Chang
- C-5** *A Survey of Cost Reduction Techniques Used by Construction Firms in Saudi Arabia* — Abdulmohsen Al-Hammad and Sadi Assaf
- C-7** *Documentation and Verification in the Change Order* — Alfred L. Dellon, CCE and Irene J. Dellon

SYMPOSIUM D — MANAGEMENT SYSTEMS

- D-1 *Bid Appraisal Incorporating Quantified Past Performances by Contractors* — George S. Birrell
D-2 *Integrated Project Management Information Systems: The French Nuclear Industry Experience* — Jean-Claude Jacquin and Gilles-Marie Caupin
D-3 *Transmission and Distribution — Projects Control System* — Albert Barsody and Paul Nochaharli
D-4 *Expert Systems for Financial Planning* — Peter S. Brandon
D-5 *One Owner's Recent Contracting Experiences* — Edward F. Reese, Jr.
D-6 *Getting "Integrated Project Control" to Work* — Frank G. Blok and Johan A. Schuil
D-7 *Cost and Schedule Specialist Toolkit* — C. James Linck and David E. Perelli
D-8 *Management Systems, A Current Update* — Frederick Wm. Mueller
D-9 *Etiography: A New Discipline* — Charles A. Villemain, J. P. Wojtyna and Michael Lasserre du Rozel
D-10 *Construction Productivity: Major Causes of Impact* — Charles A. Leonard, Paul Fazio, and Osama Moselhi
D-11 *Cost/Schedule Control System Criteria: A Lighthearted Introduction for the Nonbeliever* — Lee R. Lambert

SYMPOSIUM E — PLANNING AND SCHEDULING

- E-1 *Scheduling Technique to Control Several Minor Modification Projects* — Mark A. Andrews, CCE, Kenneth L. Mortensen, PE, and Edward J. Kaufmann, PE.
E-2 *Preliminary Cost Estimate: Guidelines for Elaboration* — Sergio L. Conforto
E-3 *Renovation Restoration Scheduling—Library of Congress* — Robert P. Jensen
E-4 *Achieving Construction Project Objectives in Various Situations* — Dora Cohenca-Zall and Alexander Laufer
E-5 *Salt Repository Project Schedule Integration* — H. Dennis Kopp and L. J. LaFountain

SYMPOSIUM G — COMPUTER APPLICATIONS

- G-1 *Reaching Profit Goals in Small Construction Contracts* — Christopher G. Walker, P Eng, CCE and Chris Quaife
G-2 *Managing Transmission Line Construction Using Computers* — Robert A. Kenney, PE CCE
G-4 *The Use of CPM Through Knowledge-Based Information Systems* — Maris G. Lenss
G-5 *Capital Plant Factorial Estimating System (FACTEST)* — Mike G. Leese
G-6 *New Development in Capital Cost Estimating* — Roger Stutz and Marc Alan Zocher
G-7 *A System for Monitoring Cost and Schedule Performance of Professional Design Services* — Luis F. Suarez, CCE and Howard A. Green
G-8 *Costaz Project Management System* — Rodolfo E. Romblon and Cesar L. Del Rosario
G-9 *Expert System Building Tools: A Selection Criteria* — Osama Moselhi and M. J. Nicholas
G-10 *Micro to Mainframe Multiproject Scheduling* — Charles P. Woodward, PE CCE and Linda M. Ramme
G-11 *Parametric Software Cost Estimation with an Adaptable Model* — Robert E. Park
G-12 *Statoll's Refinery is Remeasured by Computers* — J. Van Diggelen and B. P. Frost

SYMPOSIUM H — PRODUCTIVITY

- H-1** *Activity Survey Impact on Construction Productivity* — Stephen G. Goranson
- H-2** *Analytical Techniques to Improve Construction Productivity* — Luh-Maan Chang
- H-3** *Impact of Overtime on Construction* — Irwin Bromberg, PE
- H-4** *International Design and Construction Technology* — Enno Koehn and R. Ryan Cook
- H-5** *Project Management for Operating Facilities* — Dale E. Kern and Jane A. Anderson

SYMPOSIUM I — PROFESSIONAL AFFAIRS

- I-1** *The Future of Women in Construction* — Lenore Janis
- I-2** *Leadership and Influence: The Challenge of Project Management* — Deborah S. Kezsbom

SYMPOSIUM J — LIFE CYCLE COSTS

- J-1** *Cost-Performance Analysis for Building Envelopes* — Ramy El Diasty
- J-2** *Estimating Capital Cost Dynamics of New Technologies* — Giorgio Gottardi and Luigi Copolla
- J-3** *Economic Risk of Offshore Field Development* — Rolf Skjong and Jon Lereim
- J-4** *Cost Management Models for Design Application* — Garvin T. Dreger

SYMPOSIUM K — UTILITY COST MANAGEMENT

- K-1** *Managing (Controlling) Small Utility Projects* — Govind R. Boloor, PE and J. Larry Basham
- K-2** *"Here Come the Auditors"* — Deborah Flannagan
- K-3** *Cost Management and the Pursuit of Excellence* — Richard A. Mazzini, PE CCE
- K-4** *Starting a Project Management Organization — A Utility Perspective* — Peter F. Santoro and Leo J. Nadeau
- K-5** *Expert Systems — A Real Tool for Planning* — J. Larry Basham, C. K. Skweres, and J. S. Hamilton

SYMPOSIUM L — INFLATION AND ECONOMIC CHANGE

- L-1** *The Effect of Economic Changes on Construction Cost* — Sadi Assaf and Abdulmohsen Al-Hammad
- L-2** *Optimization of Hourly Cost of Plant (In Times of Crisis)* — Jose P. Bendicho-Joven

SYMPOSIUM M — ENGINEERING ECONOMICS

- M-1** *The Dynamics of the World Debt Crisis* — Jean-Claude Huot, P Eng
M-2 *Coal Supply Risk Evaluation for Site Selection* — Endre Mozes, CCE
M-3 *Engineering Maintenance Control Using A PC* — A. D. Milne
M-4 *Pooled Inventory Management — A Real World Update* — Larry S. Pitts, CCE

SYMPOSIUM N — PROFITABILITY

- N-1** *Justification of High-Tech Manufacturing Equipment* — Julian A. Plekarski, PE CCE
N-2 *Is Your Rate of Return Too Low?* — Henry C. Thorne, CCE
N-3 *Range Estimating: Reasoning with Risk* — Michael W. Curran

SYMPOSIUM O — EDUCATION

- O-1** *Dutch Cost Engineering Certificates and International Recognition Aspects* — J. C. van Haarlem and A. G. Montfoort
O-2 *Graduate Cost Engineering Education at NJIT: A Review of 10 Years' Experience* — Carl Wolf, CCE
O-3 *"Bottom Line" Project Management* — David H. Hamburger
O-4 *Project Management Awareness in India* — Dick Sharad

SYMPOSIUM P — PROJECT MANAGEMENT

- P-1** *Towards Excellence in Project Management* — Per Willy Hetland
P-2 *Counter-Productivity: Its Causes and Cures* — Richard E. Westney, PE
P-3 *Construction Control — The Client's Prerogative* — J. M. Bredenkamp and A. D. Milne
P-4 *The Value of Third Party Reviews* — Robert E. Dellon
P-5 *A Project Control to Meet Project Change* — Mark W. Beyer, PE
P-6 *Management Change in the Project Environment* — M. Dean Martin and Stephen D. Owens
P-7 *Quantity Control During Project Development* — J. F. Remy and Gerard Beguinot, CCE
P-8 *The Cost Engineer and Claims Prevention* — H. D. Casner, Jr., PE
P-9 *Deep Level Mining — Cost Management Techniques* — R. W. Lane
P-10 *Construction Safety Management: A Canadian Study* — Henri-Paul Martel and Osama Moselhi

SYMPOSIUM R — MANUFACTURING COSTS

- R-1** *S.P.C. Approach to Cost Reduction* — (Robin) W.S. Tham
R-2 *Optimize Equipment Replacement Costs* — Akhilesh Kumar
R-3 *Corporate Cost Control* — Mobolaji T. Macaulay

SYMPOSIUM S — ENVIRONMENTAL COSTS

- S-1** *Owner Control of Environmental Projects* — Charles G. Poulton, PE CCE and Michael J. Shannon
S-2 *Estimating Costs of Asbestos Abatement* — Thomas C. Ponder, Jr., PE
S-3 *Unit Process Cost Allocation for Rate Studies* — Kees W. Corssmit

SYMPOSIUM T — POWER PLANT CAPITAL COSTS

- T-1** *Analysis of Nuclear Power Construction Costs* — Glen L. Jansma and John D. Borcharding
T-2 *Determining the Accuracy of a Cost Estimate* — Newton F. True, CCE
T-3 *Joint Participation in Large Power Projects* — James J. Stevenson, Jr., CCE and Philip Saunders
T-4 *Economics of Coal Fired Slab Preheaters with Limestone Injection* — S. Burhanuddin and Robert C. Creese

SYMPOSIUM U — SCHEDULE PRINCIPLES

- U-1** *CS* In High-Tech Program Management* — Nghi M. Nguyen, PE
U-2 *Proof of Damages in Construction Claims* — Richard J. Long

SYMPOSIUM V — CHEMICAL PROCESS INDUSTRY COSTS

- V-1** *From Cost Data to Cost Correlations* — M. S. A. Vrijland and H. J. Fontein
V-2 *Estimation of Process Plant Insulation* — Joseph F. Galluzzo
V-3 *Estimating Factors for Process Plants* — John R. Heizelman

SYMPOSIUM Z — COMMITTEE WORKSHOPS

- Z-1** *General Workshop: Writing and Presenting a Technical Paper* — James J. Stevenson, Jr., CCE and Janet Stevenson
